PROJECTS

2025

- Parking Reservation System (RAKNAH)
 - Designed system architecture using MVC model.
 - Created UML diagrams (use case, class, sequence, component, deployment) with Lucidchart to visualize design.
 - Developed UI and mockups for web and mobile using Figma.
 - Presented design proposal to course instructor.
- ClubFul – University Clubs Web Portal
 - Developed a dynamic web platform showing university clubs.
 - Built frontend with HTML, CSS, JavaScript; backend with PHP and SQL database.
 - Designed system using ERD and sitemap.
 - Integrated Email API for password reset.
 - Used VS Code as development environment.
- CPU & Memory Management Simulator
 - Built a Java app simulating FIFO and SJF CPU scheduling.
 - Implemented memory management to demonstrate process allocation.
 - Used NetBeans IDE for development and testing.
- Metro and Bus Stations Database System (Riyadh)
 - Designed and implemented a MariaDB database for Riyadh metro and bus stations.
 - Created ERDs to model data and relationships.
 - Developed a Java app to manage and retrieve data.

2024

- Search Engine Indexing System
 - Technologies: Java, Eclipse, Data Structures
 - Built a Java-based system to create index and inverted index structures for a text-based search engine.
 - Utilized advanced data structures (Binary Trees, Lists) to manage document indexing efficiently.
- Inventory Management System – Requirements Analysis & Design
 - Defined customer requirements for an inventory management system.
 - Designed UML diagrams and user interface mockups for system structure and screens.

2023

- Recruitment System – Requirements Analysis & Design
 - Gathered and analyzed customer requirements for a recruitment management system.
 - Created UML diagrams and mockups to visualize system processes and interfaces.

EDUCATION

Bachelor of Software engineering

Aug 2022– Jun 2026

GPA 4.98/5

King Saud University

LANGUAGES

- Arabic
- English

TRAINING COURSES

2025

- Introduction to AI-Misk Hub
- User Experience Design-Edraak

2024

- Introduction to Data Science-CISCO

VOLUNTEERING

2025

- Volunteer – Eid al-Adha Day, [King Saud University]
 - Assisted in organizing and managing events to celebrate Eid al-Adha Day on campus.
- Event planner– Cultural & Social Club, College of Computer Science
 - Organized and managed club events, designing promotional materials and visual content to enhance event visibility and student engagement.

2024

- Deputy Team Leader – BIG N Initiative
 - Supported the preparation of technical talents and organized programming competitions.
 - Led the scientific and technical research team as deputy team leader.
- Marketing Volunteer – CPP Team, University Skills Development Program
 - Promoted team initiatives and events to enhance employability skills among students.
- Public Relations Volunteer – Tamouh Initiative, Ministry of Tourism
 - Assisted in managing communications and public relations for the initiative's events and activities.
- Human resources Volunteer – Sejal Club, College of Computer Science
 - Assisted in human resources tasks, including member coordination and event support.

TECHNICAL SKILLS

- Programming Languages: Java, Python, JavaScript
- Web Development: HTML, CSS, PHP
- Database Management: SQL, MariaDB
- Tools & Platforms: GitHub, VS Code, Lucidchart, Figma, Canva

SOFT SKILLS

- Leadership
- Teamwork
- Problem solving
- Presentation
- Negotiating
- Proficiency in Microsoft Office Programs
